Time to choose school for grade 7

Pupils who are to begin grade 7 must make an active choice of school.

How to choose a school?
As a custodial guardian, you choose a school for your child on Skövde Municipality's website under the online service for school choice. There, you need to make an active choice of the schools you would like your child to go to. If you have joint custody for your child, both of you must log in to the online service in order to choose schools.

If your first choice is an independent school, you must choose the school in the online service for school choice. You must also make an actual application to the independent school directly to the independent school. If you accept a place at an independent school, you must notify this to Skövde Municipality's contact centre, telephone 0500 - 49 80 00.

The online service is open 1-31 January
If you have not made an active choice by 31 January, your child will be placed in the school where there are still places available, after those who have made an active choice have been placed.

Please note that no individual reminder will be provided regarding school choice.
